

Grupp X

Supervision Meeting 07/10

7 October 2021 / 13:15 PM / ROOM ED-3705

ATTENDEES

Pegah Amanzadeh, Simon Holst, Kevin Pham, Carl-Magnus Wall, Leo (supervisor)

AGENDA

Reports

1. The group has continued working on the RDD and SDD. Further code development has included the inclusion of book images, the ability to add listings. Work has commenced to display listings and books from the databases in a couple of the views. App navigation generally works.

Objectives

- Discuss SDD sections.
- Show progress of the application.
- Discuss what methods and logic we should implement tests for.

NOTES

- Focus on getting a proper prototype for the hand-in. Details can wait.
- We need to fix the Observer pattern implementation.
- RDD and SDD look alright, but could use some fine-tuning before the hand-in.
- We still need to start testing our methods.

- We also need to start looking at structure analysis tools and quality assessment tools.

ACTION ITEMS

1. Refactor the Observer pattern implementation (ALL).
2. Investigate which methods and what logic to test (ALL).
3. Make sure basic features are all implemented for a rough prototype (ALL).
