

Grupp X

Group Meeting 10/10

11 OCTOBER 2021 / 08:30 PM / ROOM ED-3705

ATTENDEES

Pegah Amanzadeh, Simon Holst, Kevin Pham, Carl-Magnus Wall

AGENDA

Reports

1. The group has handed in their drafts for the peer review. Pegah has resolved some merge conflicts, to make sure books show up in a User's subscription list. Kevin has made sure we can retrieve a seller rating and e-mail. Simon has fixed and updated several FXML elements, and made sure that listings of a certain book show up under the detailed view of a Book. Carl-Magnus has been working on the RDD and SDD, started drafting the final report, and has investigated alternatives to STAN.

Objectives

- Discuss how to conduct peer review.
- Briefly discuss the project we have been assigned.
- Discuss structure analysis (if we have received a reply from Pelle before the meeting is over). Still no answer from Pelle.
- Various questions. Quality testing still needs to be investigated.

NOTES

- Peer review seems to be quite straightforward.

- Final report structure looks fine.
- Keep updating RDD and SDD as per usual.
- Unit testing still needs to be utilized.

ACTION ITEMS

1. Everyone will analyze the code from the other group individually.
2. Peer review will be conducted via Discord on Tuesday 12/10 at 08:30.
3. Carl-Magnus will continue working on the final report draft, as well as SDD/RDD, and start working on testing.
4. Pegah will continue working on logic and methods regarding connecting subscriptions, listings to a specific user.
5. Simon will lock the size of the application, since it's intended to be a mobile application. Simon will also make sure that there are transparent backgrounds in the detailed view of listings.
6. Figure out how to perform structure analysis.
7. Discuss naming conventions, and change names accordingly! (ALL)

END OF MEETING

Next supervision meeting will be held on 14/10 at 13:15

Next group meeting will be held on 15/10 at 08:00.
