Grupp X

Group Meeting 22/10

ATTENDEES

Pegah Amanzadeh, Simon Holst, Kevin Pham, Carl-Magnus Wall

AGENDA

Reports

1. Extraneous user functionality has been extracted by Simon and Carl-Magnus, but still needs to be implemented properly. Changes are present on a branch at the moment. Kevin and Pegah have been working on finishing touches of certain FXML elements, listing mock-ups, as well as some test implementations. Carl-Magnus has been working on the final report.

Objectives

- Final meeting!
- Discuss and practice oral presentation.
- Finish code! Everything for the presentation should be done by the end of the day or at least tomorrow.
- Discuss documents, code documentation.
- Discuss how to sort out testing.

NOTES

- We should be able to finish the presentation within 15 minutes.
- Some code clean-up needs to be done.
- Testing obviously needs to be sorted out still.
- Report, SDD and RDD do not require much work to be finalized.
- Some JavaDocs are missing, or are unclear.

ACTION ITEMS

1. Carl-Magnus will continue working on the documents, and test the code for bugs/bad practices.
2. Everyone will add to the discussions chapter of the report.
3. Everyone will co-operate to fix missing or unclear JavaDocs.
4. Simon and Pegah will work on the final elements of book reservations.
5. Simon and Carl-Magnus will also continue working on moving responsibilities from User.
6. Kevin will keep presentation slides up to date and oversee the final FXML changes.

END OF MEETING

Extra meeting scheduled for 23/10
