Grupp X

Supervision Meeting 14/10

14 October 2021 / 13:15 PM / ROOM ED-3705

ATTENDEES

Pegah Amanzadeh, Simon Holst, Kevin Pham, Carl-Magnus Wall, Leo (supervisor)

AGENDA

Reports

1. Since the peer review on Tuesday, the group has implemented more subscription and listing logic/methods (Pegah, Kevin), as well as implemented some simple tests (Carl-Magnus, Simon). The group has also managed to get some analysis tools working, namely SpotBugs and JDepend (Carl-Magnus).

Objectives

- Discuss oral presentation structure.
- Discuss structure of final report.
- Show progress and discuss package splitting.

NOTES

- Oral presentation should start with the theory and end with the demo. Optimally.

- Final report would look better with SDD and RDD as appendixes. Peer reviews will also be appended.

- SpotBugs and JDepend obviously complain about everything being in the same package currently.

ACTION ITEMS

1. Split elements of the application into proper packages. (Everyone).
2. Check which methods we need to test. (Everyone)
3. Start working on slides/script for oral presentation. (Everyone)

NEXT WEEK'S AGENDA

Next meeting will be held on 15/10 at 08:30
