Grupp X

Group Meeting 10/10

ATTENDEES

Pegah Amanzadeh, Simon Holst, Kevin Pham, Carl-Magnus Wall

AGENDA

Reports

1. Since the last meeting, work on the drafts of the RDD and SDD have continued. We were ready to hand in our drafts on Thursday 7/10, but we thought it would be smart to take some extra time to fine-tune the documents. Further developments of the code have been progressing. We solved our implementation of the Observer pattern. Previously our ControllerManager had not been added to the list of observers properly. We have tried desperately to get STAN working, but it just does not seem reasonable at the moment. More JavaDocs have been added. A simpler, method-less UML diagram has been constructed for the SDD.

Objectives

- Discuss finalization of the RDD/SDD drafts.
- Discuss what is left to implement.
- Discuss package structure.
- Discuss structure analysis (if we have received a reply from Pelle before the meeting is over).
- Various questions. Quality testing?

NOTES

- We need to mock up some data for our books/listings.
- We need to have a prototype that lets users try purchasing and adding listings.
- RDD and SDD seem to be ready for a peer review.
- Unit testing still needs to be utilized.

ACTION ITEMS

1. Finish the SDD/RDD draft. (ALL)
2. Add JavaDocs to all classes. (ALL)
3. Add enough functionality for a decent prototype. (ALL)
4. Finish the design of the final views. (Kevin)
5. Create tests once logic is in place. (ALL)
6. Figure out how to perform structure analysis.
7. HAND IN DRAFTS BY 23:59 TODAY!

END OF MEETING

Next supervision meeting will be held on 14/10 at 13:15

Next group meeting will be held on 11/10 at 08:00.
